📞 7217550949 — ✉️ Adityachauhan5566@gmail.com — 🔗 LinkedIn — 🐙 Github

Summary — Frontend Developer with strong skills in React, Next.js, TypeScript, Material UI, and Tailwind CSS. Proven ability to build scalable web applications. Seeking an internship to apply my skills and contribute to innovative projects.

Skills

Languages Java, Python, Javascript, Typescript
Frontend ReactJS, NextJS, Typescript, Redux Toolkit

Backend Spring Boot(Java), Fast API(Python)
DevOps Docker

Experience

AiStrike

April 2024 – Present

Frontend developer Intern

- Developed Threat Open source site, enhancing security community collaboration.
- Designed intuitive AI investigation UI for efficient data analysis.
- Created interactive alert dashboard graphs for better situational awareness.
- Implemented comprehensive vulnerability dashboard for effective risk management.
- Implemented and maintained log graphs to provide detailed insights into system activity, aiding in troubleshooting and security incident response.

Vcriate

July 2023 – March 2024

SDE Intern

- Improved restaurant operations and efficiency through a comprehensive management system.
- Managed inventory for both restaurant and warehouse, ensuring accurate stock levels and minimizing waste.
- Implemented a system for employee management, including scheduling, task assignment, and performance tracking.
- Developed a feature allowing employees to upload pictures of the restaurant, enhancing the system's usability and providing valuable visual information.
- Utilized [programming languages/technologies] to build a scalable and user-friendly restaurant management solution.
- Enhanced cloud security and compliance using Python FastAPI.
- Implemented an ARN capability to enable secure and controlled sharing of credentials, mitigating the risk of unauthorized access.

TGH Tech

May 2023 – Sep 2023

Frontend developer Intern

- Developed and maintained an admin dashboard for a cosmetic e-commerce site, enabling efficient management of products, orders, and inventory.
- Contributed to the design and development of the company's website, ensuring a positive user experience and effective brand representation.
- Implemented chat functionality and other features on the Social Town social service website, enhancing user engagement and communication.
- Utilized [programming languages/technologies] to build scalable and user-friendly web applications.
- Successfully collaborated with cross-functional teams to deliver projects on time and within budget.

Education

Uttarakhand Technical University

Bachelor of Technology (B.Tech)

Year of Graduation: 2024

Certifications

- Web development - React JS, Typescript, Redux Toolkit

Projects

Ecommerce site- [Link]

Jun 2023 – Dec 2023

- Full-stack development proficiency: Gained hands-on experience in both frontend (ReactJS) and backend (FastAPI) development.
- E-commerce domain knowledge: Developed expertise in key e-commerce functionalities.
- Modern technology stack utilization: Successfully applied modern technologies and frameworks.

TV Show Application- [Link]

Dec 2023 – Jan 2024

- Developed a web application using ReactJS and Redux Toolkit.
- Managed application state using Redux store and saga.
- Implemented a search functionality for efficient TV show discovery.
